

APPLIED

non destructive testing, materials testing, consultancy, training and welding

A Higher Level of Reliability®

ENVIRONMENTAL POLICY STATEMENT

The Company is committed to the implementation and maintenance of an Environmental Management System in accordance with BS EN ISO 14001, with emphasis placed on prevention of adverse environmental effects rather than on detection and amelioration after occurrence.

We shall strive for continual improvement of our environmental performance at all levels in the organisation through:

1. Ensuring that all employees understand the policy of the Company, receive sufficient motivation and possess the necessary skills to carry out their tasks efficiently.
2. Ensuring all employees are consulted and informed on all matters affecting the environment.
3. Carrying out non-destructive tests so as to minimise environmental effects.
4. Reducing waste and consumption of resources such as materials, fuel and energy.
5. Eliminating the production of polluting releases to the environment.
6. Meeting all regulatory and legislature requirements relating to the environmental effects of the business operation.
7. Ensuring that, whenever possible, our purchasing of materials/services encourages suppliers to minimise environmental effects.
8. Minimising the environmental effects of new developments through strategic planning.
9. Committing to continual improvement by assessing the risk, aspects and impacts, and setting appropriate objectives and targets.

Applied Inspection Limited carry out regular monitoring, auditing and management review of the Company's activities against this policy and the environmental management system.

This policy is available to the general public on request.

Steve Redshaw
Managing Director
